

Green Power

Comes to Milton-Freewater

Now you have a choice

Milton-Freewater City Light & Power is proud to offer you the option of buying "Green Power" and supporting the development of renewable, non-polluting power in the Pacific Northwest. Our Green Power, also known as "Environmentally Preferred Power," comes from the Bonneville Power Administration's (BPA) wind projects located in Oregon and Washington.

Now you have an easy way to help increase investments in wind and other environmentally-friendly technologies. BPA will use roughly two-thirds of the proceeds from the sale of environmentally preferred power to support research, development and demonstration of new renewable power technologies and applications in our region. The remaining one-third of the funds goes to the Bonneville Environmental Foundation (BEF), a

non-profit entity in Portland, Oregon. The goal of the BPA program is to reduce the reliance on fossil fuels for the generation of power.

It's less expensive than you might think

The additional cost of Green Power is only **\$.02** per kWh above our standard per kWh energy rate. This slight addition covers our extra cost in buying the service from BPA.

You may purchase Green Power in increments of 100 kWh blocks per month. Each 100 kWh block increases your monthly bill by only **\$2.00** – a small price to pay for helping the environment. No matter how much or how little Green power you choose, you will continue to receive the same reliable electric service you expect from **Milton-Freewater City Light & Power**. In order to ensure the proper allocation of our supply, we must

have a commitment from each purchaser of Green Power. Customers who wish to participate in this program must agree to purchase at least one 100 kWh block per month for a 12-month period.

Sign up today

Help make a difference in our environment by choosing Green Power. Simply complete the short application, clip, and return it with your monthly bill payment.

Remember, this program is totally voluntary. If you do not wish to participate, Do Not Fill Out This Form and you will still receive the same low cost service you have always enjoyed from City Light and Power. For more information, please call (541) 938-8237 or go to our website www.mfcity.com and 'click' on the Green Power link.

Please complete, sign and date the form. Clip it off and return with your **City of Milton-Freewater** Utility bill payment.

Green Power Application YES! I will support the development of renewable, non-polluting power.

I agree to purchase Green Power in the amount indicated for 12 months, at a premium of **\$.02** per kWh more than the standard per kWh energy rate. I understand that my agreement will automatically be renewed at the end of 12 months unless I notify the **City of Milton-Freewater** in writing that I no longer wish to participate in the Green Power program or that I wish to adjust the amount of Green Power purchased.

By signing this agreement, I am obligated to purchase the agreed amount of Green Power regardless of monthly electric usage.
