TO: Honorable Mayor, City Councilors,

Budget Committee Members and Citizens of Milton-Freewater

FROM: City Manager Chad Morris

SUBJECT: Proposed Budget for Fiscal Year 2026

EXECUTIVE SUMMARY

This is my first complete budget cycle in the City of Milton-Freewater, and my first in Oregon. It has been challenging for me as I familiarize myself with the constraints that the State applies to the budget process and to the budgetary elements of City operations. I have also been learning the methods, processes, and expectations of the process the City has used in the past for budgeting. My staff have been challenged trying to interpret my expectations, and very different processes, for budget preparation. This document is result of the merging of both sets of expectations and processes. I appreciate the assistance of my department heads and key staff members in educating me on the past practices, and their patience with modifications I have made to those practices.

As I present this budget, I appreciate your attention and understanding that I bring a different perspective to the City. I believe that planning and preparing for the future is a

critical part of my responsibilities. As a part of the planning that I have done, I have identified funding for infrastructure needs, both maintenance and replacement/upgrade, as critical to the future. Unfortunately, few funding sources are available to us for these needs other than utility rates. This budget proposes rate increases for all utilities. A 20% rate increase for the Electric utility was originally proposed, and while additional funding is needed to fund maintenance and operational needs and to set aside for capital improvements, we have met the Council's directive of balancing our budget with a 10% rate increase for the electric utility. Water, Sewer, and Solid Waste all potentially face large capital, or substantially increasing operational, costs in the near future. I am recommending a 5% increase of rates for each of those utilities, with the resulting revenue set aside for future capital improvements. These small increases, continued each year, should help reduce the need for double digit rate increases for those utilities in the near future.

There are some major events on our horizon:

1. We are on a state dictated course to institute comingled, curbside, recycling services. This will be a major program addition and the financial implications are not yet clear. It is expected that, at least, the normal operational costs of this

- program will be borne by the citizens of the City. Additional capital costs will hopefully be covered by the funding mechanisms in the rules that establish the requirements, but we may need to cover future, replacement, capital expenses.
- 2. We are continuing forward with the projects to improve and repair our water infrastructure by the replacement of our 60+ year old water storage reservoir tank and a new well to more efficiently service our new residents and businesses on the south hill, and to allow expansion in the I-JGB to the south. Financing packages will likely require us to raise our water rates to a rate charge calculated by the state based on their determination of where we should be. Our current rates are almost 30% lower than the state requirement.
- 3. Pedestrian and vehicular path improvements need to be addressed. Our roads and sidewalks are in decent condition at this time. This budget does not address funding for transportation projects beyond basic maintenance and upkeep. We have had success in the past with these projects, but if we don't maintain and plan for improvements, we will quickly end up with poor roads and pedestrian pathways.
- 4. Our Electric department is moving toward the replacement and improvement of some of our electrical infrastructure as well, such as the replacement of 60-yearold substation transformers which cost over a million dollars each, and many other 40-to 50-year-old infrastructure components.
- 5. Our parks and recreational facilities have been upgraded in past years and this budget reflects grant funding that our staff has secured for Marie Dorian Park and matching funds. Additional funding is budgeted for Tennis Court replacement and for improvements in other area recreational facilities, hopefully in cooperation with the school district and other community partners.
- 6. We are proposed a \$100,000 Local Option Tax Measure for Transportation to the voters in May and the impact of that passing is included in the budget.
- 7. An additional Police patrol officer has been hired this past year, and is reflected in the increases to the Police budget.

In conclusion, we are proud to be able to present you with a balanced budget totaling \$47,816,457. The rate increases (mentioned above) allow us to present a balanced budget, reflecting no reduction or elimination of services that our citizens depend upon, while starting to plan funding for future capital expenditures; including the maintenance of city infrastructure and the growth of our community.

I would like to conclude by extending my thanks to City staff, Department heads, and the citizens for the support and encouragement they have provided, and I appreciate the City Council for their support and confidence during the planning and budgeting process.

Sincerely,

Chad Morris
City Manager

and Davous

REVENUE BUDGET NARRATIVE Fiscal Year 2026

FUND: GENERAL

BUDGET COMMENTS:

Following is a list of General Revenues with a short description of each. Budget estimates are based on historical data unless noted otherwise.

<u>Taxes:</u> Program #400. The property tax levy can be no greater than the fixed rate 3.7499 per \$1,000 applied towards the assessed property value. Each assessed value can not increase by more than 3% unless a major change or new structure is built. This is due to measure 47/50. Additional levies can be approved, but only after meeting certain criteria outlined in measure 47/50.

The Utility User's fee is 3.3% for this budget year. This is computed on the electric bill for customers in the City limits. The proceeds are earmarked for public safety expenditure.

<u>Intergovernmental Revenue:</u> Program #410. The State distributes a portion of the liquor and 911 tax to the City. Part of the Liquor Control Commission revenues are distributed to local governments in the form of the State Revenue Sharing program. The State distributions are based on State projected per capita figures.

<u>Franchise Fees:</u> Program #420. The City grants the right to franchise, for certain services to conduct business within the city limits. A fee is charged for the franchise based on the gross revenues of the business. The rate range is 5% to 8% of the gross sales.

<u>Fines and Forfeits:</u> Program #430. Revenues in this category are generated by the Municipal Court and the Police Department.

EXPENDITURE BUDGET NARRATIVE Fiscal Year 2026

DEPARTMENT: CITY ATTORNEY

FUND: GENERAL

BASELINE BUDGET DESCRIPTION:

The City Attorney is the Chief Legal Officer of the City who provides legal advice to the City Manager, all departments, the Mayor and City Council. Doug Hojem of Corey, Byler, Rew, Lorenzen and Hojem had served in that role since October 1, 1980 but with his retirement on December 31, 2016, the City Council appointed David Blanc of the same firm the City Attorney at their January 9, 2017 meeting. Mr. Blanc is on an hourly fee for services basis. This saves the City thousands of dollars per year over the cost of hiring a full-time staff attorney.

In January of 2020 David Blanc joined his son in their own firm, The Blanc Firm, and the City is still being represented by him as our City Attorney. He is honoring the same discounted billing rate.

The City Manager occasionally consults with an attorney specializing in specific areas, for example labor relations or environmental law.

BUDGET COMMENTS:

Since it is impossible to forecast with accuracy the amount of time the attorney will be called upon to act on the City's behalf, the amount budgeted for professional services is based on historic levels of activity adjusted for changes in hourly rates.

The current billing rate is \$200/hour plus costs for David Blanc, which is a discounted rate much below his regular billing rate.

This budget also includes funding for the hiring of specialist attorneys who practice law in specific areas of expertise. In this complicated and litigious world, the City has found itself in need of these expensive attorneys on several occasions recently.

This budget also accounts for the cost of codification services for our Municipal code, which is the City's overall collection of governing laws and ordinances. These are bound in hard back books used by all staff members as well as the City Attorney, Municipal Court Judge and City Manager. The code is also available on the City's website www.mfcity.com.

PROGRAM:POLICE VOLUNTEERSSTAFF LEVEL 2026: 0.00DEPARTMENT:POLICESTAFF LEVEL 2025: 0.00

FUND: GENERAL

BASELINE BUDGET DESCRIPTION:

This budget has supported the Volunteer in Police Services (VIPS), a program registered with U.S. Citizen Corps. The VIPS traditionally have assisted police patrol when the need for non-sworn community services has exceeded the staffing capabilities of the department's sworn personnel.

VIPS personnel have traditionally performed non-enforcement functions such as home and business checks, speed surveys in school zones, special event traffic control, neighborhood observation patrols and other special assignments. There currently are no active VIPS members. They can be a valuable volunteer asset to public safety within the city. This budget is maintained at a very minimal level in the event the program is resurrected and becomes active again.

This budget is also intended to support a Reserve Police Officer program. There currently is no active Reserve program. City officials have recently expressed a desire to have this aspect of volunteerism within the police department revisited and revitalized.

This budget remains open for future utilization, and demonstrates an effort to maintain the potential and possibility for the above programs to be reinstated in the future to again be supplements to the paid sworn public safety component of the City.

PROGRAM:AQUATIC CENTERSTAFF LEVEL 2026: 4.75 FTEDEPARTMENT:PUBLIC WORKSSTAFF LEVEL 2025: 0.19 FTE

FUND: GENERAL

MISSION STATEMENT:

To ensure that the citizens of Milton-Freewater have opportunities to engage in recreational activities of their choice that are clean and safe.

BASELINE BUDGET DESCRIPTION:

The aquatic center is located in the City's Yantis Park at the corner of DeHaven and SW 2nd, in the west central part of the city. The facility was originally constructed in the fall of 1995 and spring of 1996. The center includes a 25-meter, six lane lap pool with a 170' flume water slide, zero depth radius area providing ADA accessibility, bathhouse, concession stand and other various amenities.

Thanks to our generous voters for passing not one, but two five-year local option tax levies for parks and recreation improvements we have been able to make over \$320,400 of repairs at the facility to include interior and exterior painting and improvements, mechanical room improvements and painting, winter pool covers, resurfacing and painting of the frog slide and improvements to the blue slide structure. Heat pumps were also replaced and in service to kick off the summer of 2023 using American Rescue Plan Act funding in the amount of \$88,500.

Summer 2025 is planned to be fully staffed by the city to include part-time seasonal staff to include a manager, lifeguards and concession/front desk staff. The center is planned to be open mid-June through mid-August, which is driven by school schedules and staffing availability.

DEPARTMENT: CITY HALL FUND: GENERAL

BASELINE BUDGET DESCRIPTION:

This budget provides for a variety of expenses not properly chargeable against any individual program.

BUDGET COMMENTS:

CITY FUNCTIONS (Acct. 370) provides for the City's annual Christmas dinner for the employees.

LIABILITY AND FIRE INSURANCE (Acct. 380) is for Liability, Auto Physical Damage and Property Insurance premiums. The employee performance bond is also charged from this account.

UNEMPLOYMENT INSURANCE (Acct. 381) unemployment claims are extremely variable from year to year. Because the City has certain categories of part-time employees who are eligible for unemployment, the possibility for claims presents a liability to the City. Therefore, the funding request is proposed at a level based on past history charges.

INTERFUND TRANSFERS: (Acct. 722, 723, and 764)

The General Fund supports the Library Fund to ensure the level of services offered to the public is maintained. Transfer to the Senior/Disabled Fund would happen if it is necessary to cover the debt service payments for the City Hall elevator. The transfer to the Sick Leave Fund is necessary to maintain funds that will be available if temporary help is needed due to an extended illness.

SIGINIFICANT BUDGET CHANGES:

The City will receive a \$600,000 passthrough grant from the State to construct a wine production facility.

REVENUE BUDGET NARRATIVE Fiscal Year 2026

DEPARTMENT: PUBLIC WORKS

FUND: STREET

<u>MISSION STATEMENT:</u>

To maintain the existing excellent streets and provide motorists the safest streets possible.

BASELINE BUDGET DESCRIPTION:

The Street Fund receives revenues from three different sources.

• INTERGOVERNMENTAL REVENUES:

A portion of the gas tax collected by the State that is distributed on a per capita basis to the city for streets. Gas tax is our primary source of funding for our streets program.

These funds are earmarked specifically for construction and maintenance of transportation infrastructure only. Gas tax in Oregon is currently \$0.40 per gallon, which was last increased in January 2024 as the final increase of House Bill 2017.

Current legislation is proposed to support and fund a robust, multimodal transportation package throughout the state. The need for investing in our transportation infrastructure state-wide under the current allocation funding formula (50% state, 30% county and 20% city) remains, but the key will be how to fund such to where users are paying for actual use of such infrastructure, regardless of fuel economy to sustain a stable funding package. The pay per gallon is no longer working due to higher efficiency vehicles, so other options are on the table for consideration such as pay per mile and other factors. It will be interesting to see how this funding gap is resolved and what exactly this funding plan will be to "Keep Oregon Moving". Whatever comes of it, one thing is for sure and that is without a stable transportation funding package in 2025, communities will see more potholes and unmaintained streets as well as critical project investments not being able to be started or completed due to the growing funding shortages.

• MISCELLANEOUS AND MERCHANDISING REVENUE:

Some revenues are not large enough to require a separate category.

• BEGINNING FUND BALANCE:

This category accounts for funds remaining at the end of the previous budget year due to funds budgeted, but not spent.

BUDGET NARRATIVE Fiscal Year 2026

PROGRAM: STREET CONSTRUCTION

DEPARTMENT: PUBLIC WORKS

FUND: STREET IMPROVEMENT

BASELINE BUDGET DESCRIPTION:

This program provides the funds for exclusive use for street projects such as the construction of new streets or reconstruction of existing streets and components that coincide with means of transportation. All projects are required to be on public streets in order to use state funds and also include means of transportation such as bicycles and pedestrian traffic.

REVENUES:

OR STATE STP ALLOCATION (Acct. 211-410-16): Each year the State of Oregon receives Federal Surface Transportation Program (STP) funds and distributes them through their fund exchange program at a 90% city and 10% state exchange rate based on formulary allocations. This program has changed over the past few years to where funds are directly distributed to the City each January/February automatically rather than through the reimbursement process. Cities are responsible for tracking their revenues and expenses and certifying all funds are used exclusively for eligible projects.

<u>ODOT GRANT / HB2017 (Acct. 211-410-22):</u> This project was 100% COMPLETE in August 2024 and has been fully closed out resulting in an investment in the full \$3 million in street and pedestrian improvements.

<u>LAND USE FEES (Acct. 211-440-30)</u>: Revenues are derived from street opening permits issued when streets and/or sidewalks are cut for repairs as set by the street opening fee resolution and issued by the Public Works Department.

TRANSFER FROM STREET (Acct. 211-490-21): Street Maintenance receives monthly gas tax deposits, which vary substantially based on the amount of fuel sold. Due to gallons sold being steady and revenues coming in, we are able to transfer funds to our street improvement program for capital repairs and replacement of infrastructure.

EXPENDITURES:

CAPITAL IMPROVEMENTS (Acct. 211-6840-410): Funds are included for the cost share of one third of the cost of implementing OpenGov® software for work orders and infrastructure mapping and tracking for streets, water and sewer split evenly. Funding is also included for cost sharing of the development and implementation of standards and specifications for infrastructure, which have been a long-time goal for staff and council to set construction requirements for new and improvements to existing developments uniformly and have readily accessible.

Revenue Budget Narrative Fiscal Year 2026

Fund: Library

BASELINE BUDGET DESCRIPTION

Through an intergovernmental agreement with the Umatilla County Special Library District, the City provides library services to approximately 12,500 residents of the Milton-Freewater area and to residents of the UCSLD. The UCSLD agrees to provide funding for operational expenses such as salaries, materials, and supplies to assist the City in meeting the Standards for Public Libraries set from the Oregon Library Association, and the State Library of Oregon. Although funds received from UCSLD are a significant source of funding for the library, it is not enough funding to meet the needs of our residents, nor is it enough to even meet the minimum level of services set by the Oregon Library Association. Due to this, the City agrees to provide and maintain a facility to house the library, and to provide funds for salaries, services, and materials which allow the library to meet or exceed established Library Standards.

GRANT FUNDING

• The library anticipates a Ready to Read grant from the State Library of Oregon for approximately \$1500 to develop and improve early literacy services to children under age five.

SERVICES

• Rental income from the old library building located at 815 S. Main Street.

DONATIONS

• The library anticipates \$2000 in donations from the Friends of Milton-Freewater Public Library and \$3000 from community businesses in support of the Summer Reading Program. The Library typically exceed this amount of donations, but it is never guaranteed.

COPIES: These are payments from library patrons for photocopies, computer print-outs, faxes and document scanning.

MISCELLANEOUS: This includes rental income from library meeting rooms and payments for our out-of-district library patrons.

REVENUE NARRATIVE

Fiscal Year 2026

FUND: PUBLIC TRANSPORTATION SERVICES

BASELINE BUDGET DESCRIPTION:

This fund was originally created to accumulate revenues dedicated to both the City's public transportation programs-the Senior/Disabled Transportation Program, which originated in 1971, and the general ridership bus program which was reestablished in 2005. The bus program was discontinued at the end of December 2023. The senior/disabled taxi transportation service is still available to seniors 60 years of age and older and/or disabled individuals of any age and must reside in the service area, which includes the city and a five-mile radius from the City's center. The taxi runs Monday through Saturday. The service is contracted out to a private vendor.

BUDGET COMMENTS:

TAXES AND ASSESSMENTS

PROPERTY TAX CURRENT Acct. 230-400-01 Voters graciously renewed the local option tax for senior/disabled transportation on May 20, 2025. The levy is for \$100,000 per year, however not all taxes are collected, so we budget for 95%.

PROPERTY TAX PRIOR YEAR Acct. 230-400-02 is the account for "back taxes" which are paid late.

INTERGOVERNMENTAL REVENUE

STATE TRANSIT GRANTS Acct. 230-410-51 is the receipt of federal 5310 grants applied for through the Oregon State Department of Transportation.

STATE TRANSPORTATION IMPROVEMENT FUNDS (STIF) FORMULARY Acct 230-410-57 are State funds that are formulary. Funds are "carry-over" from fiscal year 2025 and used as match funds.

STATE TRANSPORTATION IMPROVEMENT FUNDS (STIF) DISCRETIONARY Acct 230-410-59 are State population funds under HB2017 and are to provide stabilized funding for senior and disabled transportation programs.

SERVICES

SENIOR CITIZEN PAYMENTS Acct. 230-450-70 represents the revenue generated from taxi tickets sold for \$1.00 or \$2.00 each. (Outside City limit customers pay the higher price.) These rates for patrons are kept low due to the local option tax supplementing program revenues.

MISCELLANEOUS

INTEREST EARNED Acct. 230-470-20 is the interest we receive from the grants and revenues invested in the local government pool prior to having them released for payment of services and goods.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the government's council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the government's council has decided that periodic determination of net income is appropriated for accountability purposes.

REVENUE BUDGET NARRATIVE FISCAL YEAR 2026

FUND: ELECTRIC

MISSION STATEMENT:

Milton-Freewater City Light & Power:

We strive to provide reliable, quality electric power service through a well-maintained and equipped system. We will be a friendly and supportive member of the community and will always attempt to maintain the low electric rates that have been part of our history.

BASELINE BUDGET DESCRIPTION:

Revenues for the Electric Fund are based on historical data unless otherwise noted.

SURPLUS POWER SALES:

The City has a contract with the Bonneville Power Administration (BPA) for Service and Exchange, which states the terms for the exchange of our power allotment from the Grant County contracts. A major change in the method that BPA calculates surplus power was instituted in October 2011. Under the new procedure, BPA subtracts our Grant County resource from our total purchases. This in effect, eliminates firm surplus power sales revenue, but also reduces the amount of power to be purchased from BPA by a similar amount. Non-firm or secondary power is now the only surplus power sales revenue source. We believe this year will be an average water year with estimated income of \$221,412.

CONSERVATION:

Revenue estimates are based on the estimated completion of 20 heat pump installations, weatherization of 15 electrically heated homes, 3 commercial buildings (window or non-residential lighting upgrades) and 2 agricultural projects. The revenue will come from reimbursements from BPA for energy conservation projects, including payment of administrative costs, and from principal and interest from the Energy Loan Program.

UTILITY REVENUE:

This is the revenue from the sales of electricity and the service availability fee to all classes of electric customers. The sales of electricity can be greatly influenced by the weather patterns throughout the year. This year we anticipate a 10% general rate increase.

MERCHANDISING:

This is for labor and materials for work done at customers' expense.

MISCELLANEOUS REVENUE:

This includes earned interest, pole rental (communication companies), Electric Infrastructure Fees and after-hours reconnect fees. Also, fees paid by customers for line extensions and/or new services are included in this category.

INTERFUND OPERATING TRANSFERS:

The transfers from Vehicle Maintenance and the Warehouse have been discontinued.

EXPENDITURE BUDGET NARRATIVE FISCAL YEAR 2026

PROGRAM: POWER PURCHASES

FUND: ELECTRIC

BASELINE BUDGET DESCRIPTION:

The City's power supply comes from two sources. The City has a contract with Grant County PUD to provide a percentage share of the output of Priest Rapids and Wanapum Dams. The City has a contract with BPA to supply the balance of the City's requirements. In October 2005, the original Priest Rapids contract expired. On October 31, 2009, the Wanapum contract expired. Those contracts have been replaced with agreements that provide the City with .42 of one percent of the output of both dams, which is 70% of our previous share.

| | Sourc | e of Firm Power | |
|--------------|------------------|------------------------|---------|
| | Demand | Energy | Avg. |
| Cost/KWH | | | C |
| BPA | 14,126 KW (100%) | 81,755,046 KWH (76%) | \$.0456 |
| Grant County | 0 KW | 25,706,000 KWH (24%) | \$.0364 |
| Total | 14,126 KW (100%) | 107,461,046 KWH (100%) | \$.0410 |

BPA delivers the Grant County power to the City's two substations. BPA had charged for the use of BPA facilities, but the City has purchased those substations, eliminating that charge. We are charged wheeling charges (meaning transmission of the power from the dams to Milton-Freewater). These charges are based on the amount of power wheeled. The City also pays .42 of one percent of the operating budgets of Priest Rapids and Wanapum Dams. The total payment to Grant County is budgeted at \$916,403. The total cost associated with the Grant County power is expected to be \$935,136 (Grant County energy + BPA transmission fee). The City's billed purchases from BPA are budgeted at 14,126 KW of demand and 81,755,046 KWH of Priority Firm Power. Per our contract with BPA, we are charged only for the BPA portion of our total requirement at the current BPA Load Shaping rate. We anticipate an increase in BPA energy and demand cost of 4.3% and an increase BPA transmission of 18%. This cost is expected to be \$3,731,342. The City is credited for our Grant County secondary power at the current BPA Load Shaping rate. The net cost of Purchased Power to the City is estimated at \$4,647,745.

BUDGET COMMENTS:

In the future, weather, stream flows, environmental concerns, politics, and snow pack will continue to influence our wholesale power rates.

EXPENDITURE BUDGET NARRATIVE FISCAL YEAR 2026

PROGRAM: DISTRIBUTION/OPERATIONS AND **STAFF LEVEL 2026:** 3.73 FTE

MAINTENANCE STAFF LEVEL 2025: 3.48 FTE

FUND: ELECTRIC

BASELINE BUDGET DESCRIPTION:

The city receives power from Bonneville Power Administration (BPA) lines at two substations located on Cobb Road and Highway 11 at South 14th Street. Power is supplied from a 69,000-volt transmission loop from Walla Walla. The City installed and owns approximately 6-1/2 miles of this system. Relays and remote-controlled circuit switches are installed on this line to automatically isolate fault conditions for service continuity. The 69,000-volt supply is transformed to 13,200 volts and is distributed over 13 feeders controlled by power circuit breakers, which are designed to prevent prolonged outages due to transient faults. The City has a third point of transmission delivery at the Lagoon Substation, located near the City Landfill and City-owned wastewater storage lagoons 5 miles west of the City. This substation transforms the 69,000-volt transmission delivery down to 12,470 volts for distribution purposes. This distribution voltage is used to operate the pumps for the City wastewater disposal property.

The majority of the City's distribution system is overhead, although an increasing amount is underground. The City maintains approximately 93.5 miles of overhead lines and 16.3 miles of underground lines with 4,000 poles and 2,000 transformers. Our past construction and maintenance programs have enabled us to have among the lowest system losses (7%) of any utility in the BPA Snake River Area. The City serves approximately 4,400 customers. Of these, 3,595 are residential with an average usage of 1538 KWH per month. Approximately 995 of these customers are outside the city limits. The system is divided so that the Freewater Substation carries about 65% of the total load and the Milton Substation carries about 35%. Five feeders from each substation are looped to provide interconnection capability during emergency situations. The maintenance and operation of the substations is now the responsibility of the City.

FUND: ELECTRIC CAPITAL REPLACEMENT RESERVE

<u>BUDGET COMMENTS:</u>
This fund was created to accumulate necessary funds for major capital replacements needed by the Electric Utility.

The City has transferred the money from the Electric Fund to the Electric Capital Replacement Reserve Fund so that sufficient funds will be available for these major capital replacements that may be needed due to a natural disaster or from normal use and aging.

The remaining funds are reserved until such time as they are needed.

It is the intent of the Electric Department to replace its aging 59-year-old Power Transformer #1 at Freewater Substation in the near future.

EXPENDITURE BUDGET NARRATIVE Fiscal Year 2026

PROGRAM: WATER PRODUCTION STAFF LEVEL 2026: 0.70 FTE DEPARTMENT: PUBLIC WORKS STAFF LEVEL 2025: 0.70 FTE

FUND: WATER

BASELINE BUDGET DESCRIPTION:

The water production system consists of seven city-owned wells, six of which are active and operational. In addition, there are three reservoirs, one 1 million and two 2 million gallon, with transmission lines, recorders, chlorinators, etc. This fund covers all maintenance and operations from the water source up to and including the reservoirs.

This fund allows for production of high-quality potable water in sufficient quantity for drinking, residential, commercial and industrial use and to meet fire protection needs of the community.

PERSONNEL:

| Title | 2026 FTE | 2025 FTE |
|---------------------------|-------------------|-----------------|
| Water & Street Supervisor | 0.32 | 0.32 |
| Utility Worker | 0.31 | 0.30 |
| Parks Maintenance Worker | 0.07 | 0.08 |
| Total | $\overline{0.70}$ | 0.70 |

BUDGET COMMENTS:

OPERATING SUPPLIES (Acct. 200) funds the purchase of chlorine for wells and other basic items for well house operation.

PERSONAL PROTECTIVE EQUIP (Acct. 220) covers the replacement of coveralls, boots, safety glasses, rain gear, etc.

MINOR EQUIPMENT (Acct. 225) provides funding for tools, fans, pumps, etc. required to maintain and keep the city's six active wells in operation.

COMMUNICATION (Acct. 260) covers costs associated with phone and computer ties.

UTILITIES (Acct. 270) covers electricity costs for well pumps as well as secondary services at the wells and reservoirs for telemetry equipment.

REPAIR & MAINTENANCE (Acct. 280) for repairs as needed to wells. Previously this was significantly increased to cover unanticipated pump and motor repairs, which have been quite costly. However, this year this line item has been reduced back as most of those expenses would meet or exceed capitalization threshold limits, therefore requiring the costs to be transferred to capital.

PROFESSIONAL SERVICES (Acct. 320) provide services for reservoir inspections, electrical services and water quality testing as required by the Oregon Health Division including printing and postage for required publications.

VEHICLE REPLACEMENT/RENT (Acct. 330) covers the costs of city-owned vehicles.

MEMBERSHIPS/DUES (Acct. 340) covers membership to professional organizations such as American Water Works Association, American Public Works Association, etc.

MEETINGS/CONFERENCES (Acct. 341) for continuing education as required by the Oregon Health Authority Drinking Water Program for required staff certification renewals.

MISCELLANEOUS (Acct. 390) for those minor expenses that do not fit well into any of the other categories.

Fiscal Year 2026

PROGRAM:SEWAGE COLLECTIONSTAFF LEVEL 2026: 1.17 FTEDEPARTMENT:PUBLIC WORKSSTAFF LEVEL 2025: 1.17 FTE

FUND: SEWER

BASELINE BUDGET DESCRIPTION:

The sewage collection system consists of nearly 30 miles of predominantly 8" cement tile, gravity flow collector lines. There are two sewage lift or pump stations which pump sewage up-hill from the northerly 20% of town so it can flow to the Wastewater Treatment Plant. One is located on Lamb Street (Old Walla Walla Highway) and the other is in the Braeburn Addition. The sewer collection lines were built in 1947 with no major improvements since its construction other than replacement of several collector lines. The system also includes an industrial sewer collection system to handle wastes created from canneries and fruit packing, etc. The industrial sewer collection system is on a separate line and is combined with domestic plant effluent on the outfall line at the treatment plant.

All collection lines are cleaned every other year with several problem areas requiring cleaning two or three times per year. As the system ages more of the mains and service branches require replacement at significant costs.

Treatment is one of four sewage control programs. Treatment includes the sanitary sewer treatment plant and related pumping equipment and structures.

The wastewater treatment plant is located along County Road west of NW 5th Avenue and west of the City Warehouse. The plant design capacity is .86 million gallons per day. Flows presently average 0.4 to 0.5 million gallons per day.

The method of treatment employed at the plant includes primary and secondary sedimentation clarifiers with digestion, sludge removal and trickling filter along with chlorination. Treated wastewater is used as irrigation water at the land disposal site five (5) miles west of Milton-Freewater. Sludge disposal is at the solid waste landfill located four miles northwest of Milton-Freewater. Monitoring is done through sampling and lab analysis of wastewater effluent, disposal fields and groundwater to ensure environmental protection.

The program consists of operation and maintenance of the 670 acres of farm ground that serves as a site for irrigation of sanitary and industrial wastewater. The site is composed of 550 acres owned by the Sewage Control utility coupled with 120 acres leased from the Solid Waste utility. This will be the 36th year of City ownership/operation of the wastewater disposal facility.

Beginning January 1, 2010 the City entered into a custom farming lease of the farm land with JC Farming of Milton-Freewater, Oregon. We are responsible for applying the treated wastewater and our contractor is responsible for farming the land according to contract. Lease payments are due each quarter plus the contractor is responsible for the cost of utilities.

| CAPITAL EXPENSES (Acct. 480): Vehicle Storage Building – proposed to add on or construct new building to house sewer vac truck, jet truck and other miscellaneous sewer related vehicles and/or equipment. Boiler #1 – is one of two sources of heat used for the primary digester at the plant. Boiler #2 was replaced in FY 25 due to ongoing issues with obtaining parts and it being older putting heavy strain on boiler 1. Neither boiler was replaced as part of the prior upgrades to the plant and it is important that we keep both boilers similar in age, model and manufacture for reliability in keeping the digester balanced in order to properly function, as well as be able to obtain parts, service and maintenance as necessary to avoid equipment failure or possible DEQ permit fines, added lab fees, added costs for | \$ 75,000 |
| additives, etc. in order to realign our digester function, as it is the "stomach" of the treatment plant that once it becomes upset, it is difficult to get balanced out and functioning efficiently again. | \$ 40,000 |

REVENUE BUDGET NARRATIVE Fiscal Year 2026

DEPARTMENT: PUBLIC WORKS **FUND:** SOLID WASTE

MISSION STATEMENT:

To provide uninterrupted solid waste services to our citizens and to provide and promote the opportunity to recycle in order to aim to be environmentally responsible in the most cost-effective manner possible.

BASELINE BUDGET DESCRIPTION:

The revenues are from the collection of solid waste as described below. The landfill receipts are funds received from the drop box system. A FIVE-PERCENT (5%) INCREASE IS PROPOSED. The last refuse rate increase was effective July 1, 2023. Below is a rate survey of other area communities for residential refuse collection of one 90 (technically 96 gallons) refuse container emptied once per week at a monthly rate, which is our minimum required service level.

BUDGET COMMENTS:

UTILITY SALES (Acct. 451-30, 451-31, and 451-32) these are fees charged for collection from residential and commercial customers and the large industrial 10-yard to 40-yard drop box containers.

UTILITY SALES (Acct. 451-33) this account is for fees charged for recycling from all city refuse customers.

MISCELLANEOUS REVENUES (Acct. 470-20) as always, some revenues do not fit any major categories.

UTILITY SURCHARGE (Acct. 485-21) this flat rate fee is billed as "Infrastructure Fee – Solid Waste" on monthly utility bills for active service accounts. This helps to cover costs of the solid waste utility for operating such as landfill costs, receptacles, etc.

INTERFUND OPERATING TRANSFERS (Acct. 490-53) this utility rents a portion of the landfill site to the Sewage Control Fund for effluent disposal.

BEGINNING FUND BALANCE (Acct. 499-10) this category accounts for funds remaining at the end of the previous budget year.

EXPENDITURE BUDGET NARRATIVE

Fiscal Year 2026

PROGRAM:COLLECTIONSTAFF LEVEL 2026: 2.29 FTEDEPARTMENT:PUBLIC WORKSSTAFF LEVEL 2025: 2.29 FTE

FUND: SOLID WASTE

BASELINE BUDGET DESCRIPTION:

Residential refuse is collected once a week. Routes are defined in an effort to equally distribute the workload with some commercial customers receiving two to five pickups per week. Collected materials are deposited at the city-owned landfill. The program includes the collection of leaves in late fall, collection of Christmas trees and the two annual clean up events.

All residential customers have 90-gallon containers furnished by the city and all commercial customers that request them are furnished with 300-gallon containers. Two trucks are equipped with hydraulic arms to pick up the container without the operator leaving the truck. We also have a newer bin roll-off truck for large accounts and trash compactors. The older roll-off truck was retained to serve both solid waste collection as well as hauling recycling bins as needed to provide for times when the primary truck is undergoing maintenance and/or we are experiencing high volumes of requests for services, as to serve our customers as efficiently as possible. Our solid waste hauling trucks are all motor pool owned vehicles that the solid waste utility pays monthly rental/replacement fees on.

This program provides for two well-received clean up events, one in the fall and one in the spring. A scale was installed at the landfill in the summer of 2006 allowing customers to self-haul their waste to the landfill themselves, which has cut the city's costs of the event substantially as well as freed up drop boxes for customer use, which are in high demand. City solid waste customers are issued a ticket for one load (up to 800 pounds) to take to the landfill during these events at no additional cost.

BUDGET COMMENTS:

OPERATING SUPPLIES (Acct. 200) cover costs for weigh tickets and minor office supplies used for preparation of reports and projects. This fund also now pays for refuse containers as they are not capitalized assets individually.

PERSONAL PROTECTIVE EQUIP (Acct. 220) covers the replacement of coveralls, boots, safety glasses, rain gear, etc.

COMMUNICATION (Acct. 260) covers the cost of the sanitation truck phone and iPad.

REPAIR & MAINTENANCE (Acct. 280) for repairs as needed to equipment and containers.

VEHICLE REPLACEMENT/RENT (Acct. 330) covers the costs of city equipment and vehicles, primarily our two garbage and two bin roll-of trucks.

UTILITY BILL ASSISTANCE (Acct. 365) matches funds donated by customers for utility bill assistance to pay their city utility bills. This program is paid for through the Electric Fund paying nearly half as well as half through Public Works split equally between Water, Sewer and Solid Waste Funds. Total water contributions are budgeted to not exceed \$2,500 of the maximum combined total of \$14,500 for the program.

EXPENDITURE BUDGET NARRATIVE Fiscal Year 2026

PROGRAM:RECYCLINGSTAFF LEVEL 2026: 1.00 FTEDEPARTMENT:PUBLIC WORKSSTAFF LEVEL 2025: 1.00 FTE

FUND: SOLID WASTE

BASELINE BUDGET DESCRIPTION/SIGNIFICANT CHANGES:

Not only is recycling required by the Oregon Department of Environmental Quality as part of our landfill operating permit, but we as both citizens and employees aim to promote waste recovery and meet recovery goals by providing our citizens the opportunity to recycle.

With changes brought forth by Senate Bill 582 – *Plastic Pollution and Recycling Modernization Act* (RMA) passed during the 2021 legislative session and signed into law by former Governor Brown on August 6, 2021, we will be seeing changes to our program begin to be implemented after July 1, 2025.

How long it will take to actually see the changes will depend on several factors such as funding coming in to local governments to help with some of the startup fees for some of the program requirements, such as roll carts and a garbage truck to collect curbside co-mingled recyclables on the Uniform Statewide Collection List (USCL). These items are outlined to be accepted co-mingled as part of curbside recycling service for residential customers as well as at recycle depots. There is also a PRO acceptance list that the DEQ requires producer responsibility organizations to provide for the recycling of certain items that are not on the USCL list. Lists can be found online at https://www.oregon.gov/deq/recycling/Documents/rmaMatAccept.pdf

While it is too early to explain exactly what will be implemented, we know that change is imminent, however, these changes are not new to our solid waste permit. We have been operating under an alternative program since we took back over recycling in 2018 due to the volatile market conditions around Operation National Sword policy initiative launched in 2017 by China to more closely monitor recyclable waste imports and the City not having an existing viable set up or funding to set up a program for curbside collection at that time, which allowed us to operate as we have been since that time under the alternative program, which goes away under the RMA on July 1, 2025.

REPAIR & MAINTENANCE (Acct. 280) for repairs as needed for the recycling vehicle and any other minor incidentals necessary.

FUND: LANDFILL CLOSURE RESERVE

BASELINE BUDGET DESCRIPTION:

This fund was established to account for funds that the Governmental Accounting Standards Board is requiring municipalities to have to cover the closure and post-closure costs associated to the landfill operation.

The revenues are an expense paid from the Solid Waste Fund to the reserve fund and interest that the funds will earn. The funds will be held in reserve to cover the costs associated with the closure and post-closure care that must be performed when the landfill is no longer in operation.

FUND: GOLF COURSE

BASELINE BUDGET DESCRIPTION:

The City's municipal golf course and clubhouse are located at 299 & 301 Catherine Street.

The clubhouse building houses a restaurant (299 Catherine St) and a Pro Shop (301 Catherine St).

The restaurant is full-service, offering food and beverages and is operated through a lease. The city maintains the building and equipment such as the HVAC and kitchen fan hood as well as plumbing.

The Pro Shop is operated through a professional services contract. Golf cart, golf club and cart shed storage rentals are available through the Pro Shop. This program also oversees the operation and maintenance of the storage units (36 units on Catherine Street and 30 units adjacent to the 9th fairway that are also part of this program). The Pro Shop schedules tee times, collects play fees and coordinates rentals, storage and tournaments as well as enforcing course rules.

This program is in its 22nd year and serves to separate the clubhouse and the professional service expenses from the routine maintenance of the golf course. This program accounts for maintenance to the clubhouse building, cart sheds and contractual services.

REVENUE BUDGET NARRATIVE Fiscal Year 2026

DEPARTMENT: PUBLIC WORKS

FUND: VEHICLE MAINTENANCE

MISSION STATEMENT:

To ensure all of the fleet users have well maintained and safe vehicles to perform their jobs.

BASELINE BUDGET DESCRIPTION:

This program provides the method of controlling the revenues and expenditures to operate the vehicle maintenance program. The revenues are based upon rates that are charged to other funds for use of vehicles and equipment. The rates are computed from the previous years cost analysis. This program covers motor pool-owned equipment and vehicles; department-owned non-motor pool equipment, one (1) public transportation van, Milton-Freewater Unified School District (MFUSD) vehicles and equipment, 3+/- Umatilla-Morrow County Head Start (UMCHS) buses and vehicles and 3 +/- Oregon Child Development Coalition buses (OCDC). The revenues for the Vehicle Maintenance Department are derived from the following sources:

CHARGES FOR SERVICES:

- 1. The Vehicle Maintenance fund records all the costs of City vehicles. The other funds rent the vehicles from this fund. The monthly rate is established by using the estimated cost of fuel, parts, labor, overhead and other operating costs based on operational experience. Revenues are also generated by the repair work done by the mechanics on school buses and City equipment.
- 2. Agreements have been made with MFUSD, UMCHS AND OCDC for repairs, annual inspections and maintenance of school buses as well as vans and other means of transportation for students and staff. This service includes all labor, materials and overhead to maintain the functions of the program.
- 3. Non-Motor Pool equipment repair is also provided for in the vehicle maintenance program. Departments own some of their own equipment from chain saws and blowers to the street sweeper and scraper. Service for this equipment includes all labor, materials and overhead and costs are billed to the benefitting funds once work is done to pay the shop for services rendered.

MISCELLANEOUS REVENUES:

Interest is calculated on the estimated cash balance average invested throughout the year.

BEGINNING FUND BALANCE:

This category accounts for funds left at the end of the budget year due to unexpected revenues for funds budgeted, but not spent.

SIGNIFICANT CHANGES: Since it is nearly impossible to gauge what will be needed for bus and school vehicle and equipment repairs from year to year, motor pool maintenance has been combined with bus maintenance as one expense program. During the FY 25 budget review this was questioned and we listened. In order to provide better transparency and reflect time spent on non-city vehicles and equipment accurately, we will continue to bill out actual time through our work order system to the asset worked on along with parts plus 30% overhead with a separate parts expense account for bus parts. The labor and parts plus 30% overhead will be billed to the districts monthly and will reflect those charges as revenues when they come back in through the school bus repair revenue line item.

FUND: VEHICLE MAINTENANCE

BUDGET COMMENTS:

SIGNIFICANT CHANGES: The School Bus Maintenance program has been merged with the Motor Pool program expenditure budget this year. This will show a more accurate accounting of costs as suggested during the prior budget review, rather than a set allocation of some fixed annual expenditures that don't accurately reflect the true costs in comparison to revenues for this program.

REVENUE BUDGET NARRATIVE Fiscal Year 2026

DEPARTMENT: PUBLIC WORKS

FUND: VEHICLE REPLACEMENT

MISSION STATEMENT:

To ensure all of the fleet users have well-maintained and safe vehicles to perform their jobs.

BASELINE BUDGET DESCRIPTION:

The Vehicle Replacement fund is designed to acquire the necessary capital revenues to purchase replacement vehicles for the city fleet as required. Revenue is derived from the monthly charges assessed for each vehicle calculated on the cost of each vehicle plus depreciation.

REPLACEMENT FEES:

Each vehicle in the department has been assigned a useful life from this schedule. Funds are set aside based on monthly use by the utility or department that actually uses the equipment. FY 26 replacement fees included in the budget are \$333,438.

Due to the ever-increasing cost of replacement vehicles a 10 percent (10%) depreciation adjustment has been added to vehicles that are not yet fully depreciated in an effort to cover those costs. FY 26 depreciation adjustment fees included in the budget are \$22,909 for a total depreciation of \$356,347.

In order to sustain our replacement budget this year a five percent (5%) replacement fee was previously implemented to the original cost of the vehicle. The total replacement fee impact is \$235,974 to further cover increasing costs of replacement.

BEGINNING FUND BALANCE:

This category accounts for funds remaining at the end of the budget year due to unexpected revenues or funds budgeted but not spent.

BUDGET NARRATIVE Fiscal Year 2026

FUND: SICK-LEAVE LIABILITY

BASELINE BUDGET DESCRIPTION:

This fund is used to set aside resources to cover cost of part-time help needed to replace employees who are out on extended sick-leave or family leave issues. It is also to provide funds for sick-leave payout for retiring employees who qualify.

City employees, normally, build up a reserve for sick-leave and as the length of service increases so does the amount of sick-leave that an employee can have accumulated to use. If an employee is unable to work for an extended period of time and has accumulated sick-leave, there are no funds available in the operating budget to hire a temporary replacement. This fund provides the City with a source of funds for temporary help.

BUDGET COMMENTS:

Revenues consist of interfund transfers from the General Fund, Enterprise Funds, Special Revenue Funds and Internal Service Funds that have payroll expenditures. Interest also contributes to the revenues.

Expenditures are budgeted at a level to cover anticipated temporary replacement wages that may be charged against this fund. Actual amounts charged against this fund will depend on the salary level and amount of time the temporary personnel may be hired to cover an employee who is out on an extended sick-leave and/or the cost of a retiring employees sick-leave payout.

The City has a sick leave bank policy. If contributions are needed, once a year employees have the opportunity to donate 4 to 16 hours of their personal vacation or comp time to the bank. These banked hours are available to any permanent regular employee who has an FMLA qualifying event and has run out of paid leave. The employee will complete an application form to make a withdrawal from the bank hours. The Sick Leave Bank Board will approve or deny each application.
