

City of Milton-Freewater
Aquatic Center

PUBLIC NOTICE – FOR IMMEDIATE RELEASE

Date: July 23, 2019

Contact: Brian Steadman, Public Works Superintendent 541-938-8272

Due to technical issues with the water filtration system the city has been left no other choice than to drain the pool. Safety is our number one priority and when water clarity is not adequate we cannot risk opening the pool. Staff is working on this issue and we will provide an update on when we will re-open just as soon as we know more.
